

Hotels, holiday villages, and youth hostels

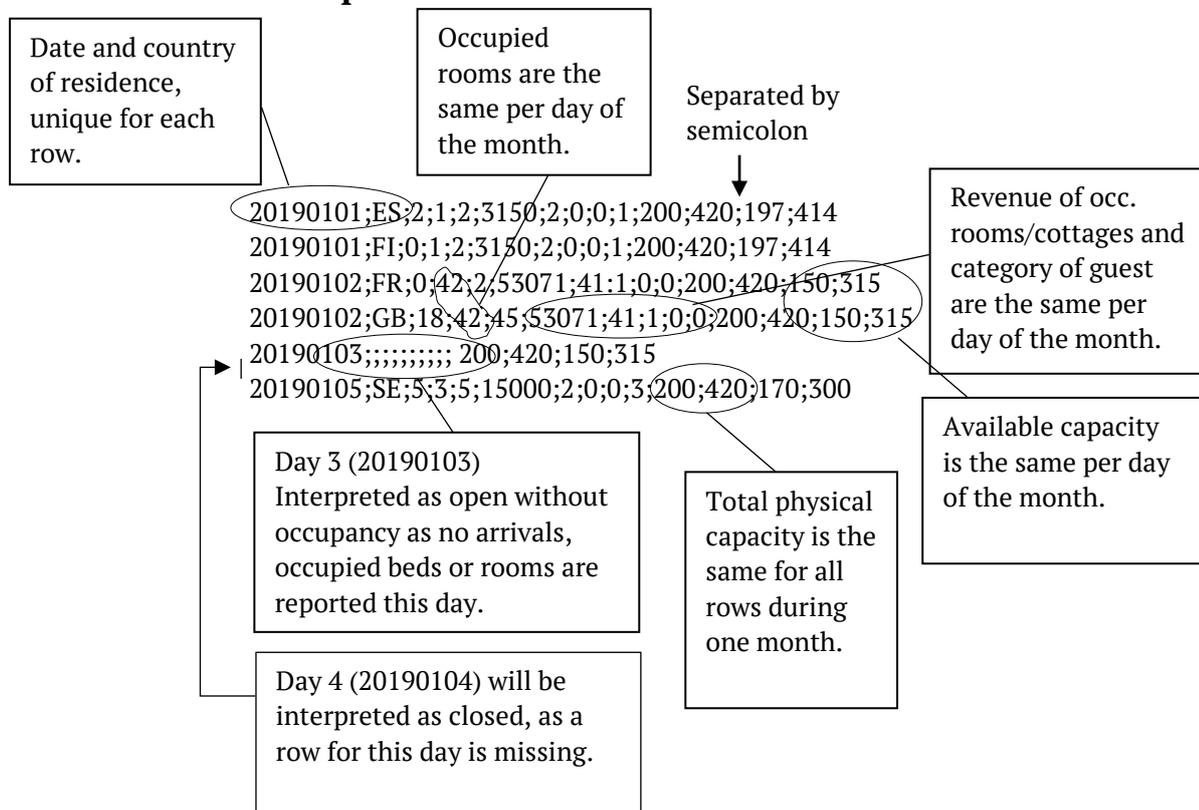

Text file specification for reporting with a structured text
file from booking systems for accommodation statistics

Field name	Field no.	Format	Comments
Date	1	N	Use the format YYYYMMDD, e.g. 20210101
Country of residence	2	T	The country in which the guest has lived for the past 12 months or more. The country of residence may be different from the guest's citizenship. Indicated using the international standard ISO 3166-1:1997, for example FI, SE. Current list available at www.scb.se/inkvartering
Arrivals	3	N	Distributed per day and country of residence. Can also be referred to as newly registered guests. Only count the arrival of the guest. For example, if four people stay two nights, it counts as four arrivals and eight overnight stays.
Occupied rooms	4	N	Distributed per day. A room is occupied when at least one person stays in the room (this also applies to cottages). For youth hostels, any dormitories should only be reported as occupied once per night, even if several parties have booked a bed in the dormitory. Only report guests visiting for business or leisure. Do not include rooms and cottages that have been used for asylum accommodation, staff accommodation, social services, owner bookings or similar.
Occupied beds	5	N	Distributed per day and country of residence. Defined as one overnight stay per person. Only report guests visiting for business or leisure. Do not include beds that have been used for asylum accommodation, staff accommodation, social services, owner bookings or similar.
Accommodation revenue of occ. rooms/cottages	6	N	Distributed per day. Total for all occupied rooms/cottages, excluding VAT and breakfast, according to account 3010, HR92. Report in whole Swedish kronor (SEK).
Category of guest Business traveller	7	N	Distributed per day. Total number of rooms occupied by business travellers, guests who pay standard rate or with business discounts, mainly on weekdays.
Category of guest Conference guest	8	N	Distributed per day. Total number of rooms occupied by conference guests, guests who pay conference rate, stay overnight and participate in a conference held at the establishment.
Category of guest Groups	9	N	Distributed per day. Total number of rooms occupied by groups, guests who pay group rate, e.g. bus tours, senior trips, sports and interest groups.

Category of guest Leisure	10	N	Distributed per day. Total number of rooms occupied by leisure travellers, guests who pay a discounted rate and travel mainly on weekends and during the summer, or private individuals who pay standard rate and often make up the majority of guests at tourist resorts, e.g. a ski resort.
Total physical capacity Rooms	11	N	Distributed per month (this variable is repeated for each row in the text file). All rooms, including temporarily closed rooms and cottages. Keep in mind that rooms and cottages that are temporarily closed due to e.g. repair must be included in the total capacity. Rooms and cottages that have been used for asylum accommodation, staff accommodation, social services, owner bookings or similar should not be included in the total capacity.
Total physical capacity Beds	12	N	Distributed per month (this variable is repeated for each row in the text file). All beds, including beds in temporarily closed rooms and cottages must be included in the total capacity. Beds that have been used for asylum accommodation, staff accommodation, social services, owner bookings or similar should not be included in the total capacity.
Available capacity Rooms	13	N	Distributed per day (this variable is repeated for the same day in the text file). The number of available rooms and cottages, i.e. excl. temporarily closed rooms.
Available capacity Beds	14	N	Distributed per day (this variable is repeated for the same day in the text file). The number of available beds, i.e. excl. temporarily closed beds.

Field separator: semicolon

Example

How to submit your file to Statistics Sweden

The text file should be saved to the user's computer and then uploaded after logging in to www.scb.se/inkvartering

Test

Prior to implementation, test files will be requested for approval.
